

The diagram consists of three nested squares. The outermost square is the largest and contains the text 'Analise Espacial' at the bottom. Inside it is a medium-sized square containing the text 'Estatistica Espacial' at the bottom. The innermost square is the smallest and contains the text 'Geoestatistica' at the bottom. The squares are centered relative to each other, illustrating that geostatistics is a subset of spatial statistics, which is a subset of spatial analysis.
